

**Grasslands Conservation Council  
of British Columbia**

## **Bob Moody, Executive Director – Biography**

Some might say that Bob Moody lives and breathes grasslands, living as he does in the beautiful grasslands of Knutsford on the outskirts of Kamloops. Bob completed his M.Sc. in Plant Science at UBC and has taken advanced management and administration training from SFU, The Banff Centre and the University of Saskatchewan. He recently received his 20-year pin from the Association of Professional Biologists. His career has taken him from government to industry to consulting to First Nations administration. His position with GCC is especially satisfying to him, because he was the first Executive Director of the BC Conservation Foundation and feels that he has returned to his conservation roots. Away from work, Bob is usually on top of a horse or fishing, skiing, hiking or camping.
